

LADDER & CAGE SYSTEMS

Bedford Reinforced Plastics' fiberglass ladders and ladder cages are used in a wide range of industries. BRP's fiberglass ladder and cage systems meet or exceed OSHA requirements and have become the preferred system for use in chemical plants and other corrosive environments. Fiberglass ladder and cage systems are light weight, corrosion resistant, easy to install, will outlast aluminum and steel, and require little or no maintenance.

Applications

- Industrial
- Marine
- Mining
- Chemical
- Oil and Gas
- Power Plants
- Off Shore
- Recreation
- Building Construction
- Water / Wastewater
- Transportation
- Electrical

Benefits

- Lightweight
- Low Maintenance
- Strong
- Easy to Install
- Corrosion Resistant
- Chemical Resistant
- Fire Resistant
- Non Conductive
- Dimensionally Stable

Sizes & Availability

BRP's ladder and cage systems are designed and fabricated to meet the requirements of OSHA 1910.27. BRP's ladders are fabricated in various lengths with a standard 18" rung width configuration with 12" rung spacing. Custom colors and custom designed ladders and cages can be fabricated upon request. Ladders can be shipped pre-assembled or as a kit for installation in the field.

Materials of Construction

BRP's fiberglass ladders and cage systems are constructed from pultruded shapes produced using a premium grade polyester resin system with flame retardant and ultraviolet (UV) inhibitor additives. For extremely corrosive environments an optional vinyl ester resin system is available. Side rails and cages are pigmented OSHA safety yellow. The rungs are a pultruded fiberglass fluted tube or a solid rod with non-skid surface.
