## THE FLEXIBILITY YOU WANT. THE STRENGTH YOU NEED.

With a 24" width, lightweight Bedford baffle panels give you the design and fabrication freedom you want, while the fiberglass construction gives you the durability you need for long-lasting performance. Bedford baffle panels also carry the NSF Standard 61 certification rating, so they can be used in potable water applications. Plus, they offer excellent installation flexibility. They can be attached to concrete walls using clip angles, mounted to columns, or attached to H-beams.
